

A Wunderdog Furry Friend Field Trip!

Having fun while receiving important safe exposure AND learning!

What's In It For My Dog?

We know that all dogs benefit from many safe experiences from puppyhood on, but as most families struggle with full times jobs, it isn't always easy to achieve our exposure or exercise goals for our furry family members. While daycares can provide the needed (hopefully safe) interactions with other canines

and people, this is still a limiting environment because the *scenery rarely changes*. Although the dogs and staff are on rotating schedules, your dog sees the same humans, dogs, and environment the majority of the time.

Any transition from home to safe environments is beneficial, but our field trips offer more (structured) variation in places, people, dogs, things, AND training. Safe exposure is crucial for the following benefits:

- Can desensitize a shy or fearful dog to many things, and create new, positive associations.
- Can increase learning repertoire and/or polish established obedience/commands.
- Can offer sustained cardio exercise for mental and physical health.
- Can "balance" or improve your dog's behavior with the company/help of a Wunderdog "model dog."

As an added ultimate benefit, your dog will receive (hands-on) 1-on-1 obedience training with a professional dog trainer when participating in one of our "field trips." Any observations, tips, or solutions will be recorded for you at the end of our time together.

Our field trips are generally 4 to 5 hours in length (longer with puppy care). Your dog will be picked up/dropped off at your home, and secured in our vehicle (according to your written instructions) during transportation. Pictures and videos will be emailed to you during or after the field trip.

Here are some of the places we often visit:

- Downtown Madison (store fronts, Capital, Terrace)
- Downtown Middleton, Waunakee, Monona
- Home Depot, Cabela's (Sun Prairie)
- *Dog parks (at less-busy times): Cherokee Marsh, Token Creek, Lake Farm County Park, Middleton Dog Park, Waunakee Dog Park, Deforest Dog Park ***Your dog must have City/Village and/or Dane County Dog Parks tag to visit these**
- Pheasant Branch trail, Governor Nelson State Park, Cherokee State Park, Tenney Park, Lake Mendota and Monona trails

This list is ever-changing and expanding as we are finding new and safe places to explore with our canine companions!

What to Pack for Your Dog:

- ▶ Training Equipment (leashes, collars, harnesses, etc.)
- ▶ Any Snacks or lunch (if necessary)
- ▶ Poop Bags
- ▶ Collapsible Water Bowl, bottle of water (we *will* supply if not packed)
- ▶ Towel or baby wipes for wiping dog off if wet or dirty (if owner desires)

If you would like your dog(s) to participate in a Wunderdog Furry Friend Field Trip, you will need to complete & submit a Wunderdog Pet Profile document, **and** fill out the attached information form (next page).

Wunderdog Furry Friend Field Trip Application
